

International Institute for Primary Health Care in Ethiopia

IIIPH-C-E

The International Institute for Primary Health Care in Ethiopia (IIIPH-C-E) was established in February, 2016 to become a global center of excellence for training and implementation research in Primary Health Care (PHC). IIIPH-C-E aims to strengthen the internal processes and management of PHC systems.

The National Public Health Training Center where IIIPH-C-E is located and training takes place.

Mission

To provide training on Primary Health care and to conduct PHC research

Vision

To contribute to the revitalization of the global movement of Health for All through PHC

IIIPH-C-E's first board meeting (June, 2017)

Objectives

- Capacity building on PHC systems and community health workers program
- Building the evidence base for PHC, addressing gaps and challenges and identifying strengths for timely implementation by policy makers
- Being a resource for PHC by facilitating sharing and networking among PHC implementers and researchers

Activities

IIIPH-C-E works toward achieving its vision in three ways: training, research and resource center

Delegates from Lesotho and Tanzania after a successful training (Aug. 2016)

Plan

Implement the strategic plan (2018-2022)

Future organizational structure
